Welcome to the VIII La Salle Summer Program!

Since 2012, the La Salle Summer Program is bringing together Lasallians from all over the world. Our whole program is arranged to give you the opportunity to better understand the world and others around you through workshops, collaborative work, games, international nights, visits and even through free time. The La Salle Summer Program is a unique adventure of self-knowledge and improvement, and at the same time of sharing experiences, thoughts and good times.

In this document, you will find information about packing, arrival, accommodation, schedule and the groups you will work with. Although, the best place to find all you need for the program is our website! There are reports, assignments, students and

instructor's profiles, workshops material and much more.

We hope in these two weeks, you will experience some of the best days of your lives and create strong bonds of friendship that will bring closer our international Lasallian community.

We can't wait to meet you in France!

#300lasalle – The Tercentenary Celebration

During 2019, the Institute of the Brothers of the Christian Schools and the Lasallian Family will celebrate the 300th anniversary of the death of their founder. In this sense, for our program in 2019 we will have a special theme: **The Tercentenary Celebration.**

In order to celebrate Lasallian values and mission, we will be visiting the city of Reims, where our founder was born. It is very important remembering La Salle's teachings and lessons. We will keep this in mind for all workshops and activities.

Where is the program taking place?

Most part of activities will take place at Unilasalle Campus Beauvais. We will be also staying one day at Unilasalle Campus Rouen.

The "Institut Polytechnique LaSalle Beauvais" is the result of a merger between two graduate schools: the "Institut Supérieur d'Agriculture de Beauvais" (ISAB) and the "Institut Géologique Albert-de-Lapparent" (IGAL). The main focus of the institution is on Earth, Life and Environmental Sciences. Founded in 1854, the institution has now approximately 1,600 French and international students, 200 employees, 90 professors (teaching and research), 280 stand-in teachers, and 5,600 Alumni. LaSalle Beauvais is located in the Picardie region, 50 miles to the north of Paris. True to its founding principles, after Jean-Baptiste de La Salle (17th Century), LaSalle Beauvais shares the responsibility and mission of all LaSallian institutions in the world, to serve in a global society: fighting poverty through education and training, and promoting widespread sharing of knowledge.

What to pack

The residence at La Salle Beauvais provides bedclothes (sheets, pillowcases and pillows) as well as towels. It is recommended that you either pack your own toiletries for the conference or plan on buying them upon arrival.

Conference workshop attire will be mostly casual. There will be some events spent off campus, but for the most part, you should dress as though it were a normal day at your home university. On the weekend we will be in Paris, and you will have free time that you can spend touring. So please pack with that in mind as well.

For workshops or group work, you should pack as you normally would for a day at your home university – notebook, pen, pencil, etc. It is also recommended that you bring a USB Memory Drive for presentations.

Workshops

The students will work in national and international groups during the workshops.

Please be aware to the reading material available in our website, essential for the preparation for the workshops.

Reminder

- Time: GMT/UTC plus one hour, so when it is 2 p.m. in Paris, it is 1 p.m. in London and 7 a.m. in New York.
- Electricity: 220V, 50Hz
- Currency: French currency is the European currency: the Euro (€) – (1€ = US\$ 1,15)
- Weather in North of France: 15°C to 30°C on summer

International nights

We will also be having a series of International Cultures Nights, where participants will plan activities with other participants from their country to show a little bit about their home culture.

International Cultural Nights are one of the main staples of the conference and possibly the most talked about aspect. The excitement surrounding the events isn't the only factor driving their popularity, the competitive aspect of activity also drove the students to be creative and truly explore and express who they are as a country group.

If there is something that you can think of that is strongly representative of your home country, bring it along!

Technology and Social Media

As this is the eighth annual La Salle Summer Program, we would like to make a strong effort to continue to raise global awareness of the conference with our friends, families, and your home universities.

We have developed a social media strategy to help generate buzz about the conference and tie all of your posts together. When uploading pictures on Instagram, Tweeting, or posting on Facebook items related to the conference, please use the hash tag **#lasalleprogram2019**. This year, we can also use the hash tag **#300lasalle**, in reference to the tercentenary celebration.

Please feel free to bring your own notebook to use in the workshops.
